City: Sequim

State: WA

Work Information

Business: unique as you

Position: owner / artist / instructor / superhero

Do you volunteer or support non-profit organizations in your community? Why is this important to you?

Yes! I am Arts advocate, educator, and community builder in my local counties and work with nonprofits world wide via virtual worlds and have established, produced, and supported creative networks, events, and nonprofits by facilitating collaborative connections among artists, educational institutions, nonprofit organizations, businesses, and the local

government. Currently, I volunteer as the President of Sequim Humanities and Arts Alliance, Chair of the University of Washington Alumni, Vice President of the Museum Collective, Inc., Mentor Manager for the Nonprofit Commons, the Producer of the First Friday Art Walk Sequim and North Olympic Fiber Arts Festival, and serve on committees for the Sequim Museum & Arts Center, Sequim Chamber of Commerce, Olympic Peninsula Tourism Commission, and for the City of Sequim. I provide workshops for diverse nonprofit organizations to foster new partnerships and to embrace technology use because we are remote in location and need to support each other. This work is important to me because I believe we need to empower, encourage, and educate people through expression, collaboration, and advancement to create a responsible and respectful community for the best possible future.

Staying fit and young at heart. Being a Dad that my son can look up to. Eventually getting a getaway place at the coast that my wife and I can enjoy. One day finally interviewing David Bowie!

What Lewis & Clark professors made the biggest impact on the way you think about the world?

Stuart Kaplan, for being at the helm of KLC, which greatly influenced my career path that I've chosen. Rich Spielmann for opening my eyes to all sorts of European concerns. Jo Ha for pushing me to do my absolute best when it came not only to my classwork, but my Senior Thesis.

What memories come to mind when you think about Lewis & Clark?

A perfect swing in a men's open 8 when rowing on the cold Willamette. Smuggling a tray out of Fields dining room to then use it for sledding down snow covered roads on campus. Laying out in the sun on Copeland Beach Spring Term and burning myself in near to 17 minutes. The daily morning walk from the dorm to lower campus which gave me time to gather my thoughts before class. An amazing year abroad in Munich during the time that the Berlin Wall was coming down, the Soviet Union was collapsing and Gulf War I started and ended. Many all nighters either in my dorm room, a Mac lab in the basement, or the dorm lounge where I could stare out at the trees. Being an RA my Sophomore year and all the fun challenges that came with it. Late nights at KLC creating mixes or promos or hijacking someone else's radio show...

What were your favorite places to hang out as a student, on campus and off?

KLC and lower campus near the reflecting pool. Oh, and when no one was looking, the manor house fire escape. Off campus, The Metro downtown, 2nd Ave. Records, Turntable Mary's and the Confetti Club

What would you have done differently at L&C if you could do it all over again?

Not take myself so seriously. Not worry as much about the seemingly insurmountable amount of classwork. Wear a bit more color.

Hire tons of smart people to fix all the problems in the world and make everyone happy and then go out to eat at a really nice restaurant.

When you were at Lewis & Clark where did you see yourself at the age you are now?

I honestly could not think that far ahead at the time.

What are the goals/dreams/aspirations you are working towards?

When I retire from teaching I would like to have my own Art studio and drink lots of coffee and diet coke and do woodcuts and maintain a beautiful cactus garden in my yard.

What Lewis & Clark professors made the biggest impact on the way you think about the world?

Phyllis Yes taught me how to make and stretch an awesome canvas.

What memories come to mind when you think about Lewis & Clark?

My freshman year I was assigned to Platt 3rd East. That was the foulest, dirtiest floor of the Platt wing. I think the red carpet in the hallway was from the 50's. I remember often hearing Def Leppard's "Armageddon It" and pretty much the entire Hysteria album blaring from the first floor of Platt. The quesadilla's and java shakes in the Plattform were really good and contributed to "freshman forty" weight gain for sure.

Ruthe Farmer and I met in Dinah Dodd's Basic Inquiry class freshman year and we have been friends ever since. We both remember one of the school's nurses, Nurse Nancy. She was unique and made us laugh- but most of all she genuinely cared about the health of the students. I had a really fun year living in Copeland as a Sophomore..... I remember watching The Simpsons (first season!) and Twin Peaks in the guys room next door.... Someone stole my painting from a student art show in the main hallway of the Art department building my senior year- I was very upset about that. Lastly, I vividly remember everything about my junior year abroad in Strasbourg, France.

What would you have done differently at L&C if you could do it all over again?
Relaxed more, drank more....

What was your favorite class?
All of the Art classes I took were great!

If you have visited the campus since graduating, what has been the most surprising change?
The Art Department looks beautiful!

I received the MBA in Social Entrepreneurship & Marketing from the University of Oxford Said Business School

If money were no object, you would...

Fund and staff women's history curriculum for all US schools. Also, I'd like to make all middle schools single sex - at least at the classroom level.

When you were at Lewis & Clark where did you see yourself at the age you are now?

I figured I would have a few kids by now. LOL And I thought I would be working in advertising.

What are the goals/dreams/aspirations you are working towards?

I'm working on addressing the gender gap in technology and engineering, as well as making sure that girls & women have access to the lucrative jobs in the tech sector - not just the support and administrative work.

What Lewis & Clark professors made the biggest impact on the way you think about the world?

Dinah Dodds was very influential. Also, I recently spoke at a conference alongside Janis Lochner. I remember her encouraging me to do more in science.

What memories come to mind when you think about Lewis & Clark?

Really great, huge parties. And Bob Reed.

What were your favorite places to hang out as a student, on campus and off?

You know, in all seriousness, I'm looking for the right dream at the moment.

What Lewis & Clark professors made the biggest impact on the way you think about the world?

Vern Rutsala. Stephanie Arnold. Edgar Reynolds. Laurie Finke.

What memories come to mind when you think about Lewis & Clark?

Something with a hot-air balloon. Nudity. Lots of hot cookies. A man on a tiny bike. Some guy who lived in a tree. Being awkward and skinny. The -ting- of a Macintosh turning on.

What were your favorite places to hang out as a student, on campus and off?

I haven't been to Portland in over twenty years -- I seem to remember the Bagdad theater. A place called La Patisserie. And Hung Far Low. Powell's, of course. On campus, the green room was the best hang-out.

What would you have done differently at L&C if you could do it all over again?

There would be much, much less patchouli.

What was your favorite class?

Poetry of WWI with Vern Rutsala.

If you have visited the campus since graduating, what has been the most surprising change?

I haven't visited, but I did marry an LC grad. Does that count? She certainly hasn't changed except that she's even smarter. (Oh, she's Kristin Espeland, '94.)

How have undergrad students changed since you graduated?

They have more gadgets, it's true. But the boys still dream of playing acoustic guitar just well enough to impress someone.

What did you do the first year after graduation?

I taught English in Guilin, China.

If you are not able to attend the reunion, what would you like to say to your classmates as they gather on campus to celebrate?

If you remember me, I am exactly the same as I used to be but much less creepy. If you don't remember me, I was the cool guy you had a crush on.

I support Planned Parenthood because they were my primary health care provider in my 20s, allowing me to figure out what I wanted to do with the rest of my life without being worried about becoming pregnant. I support LC because I received a great education.

What is the professional or personal achievement of which you are the most proud?

Paying off my student loans (undergrad and grad combined) before I turned 40.

Where have you lived and traveled? What are your favorite places in the world?

I've lived in Portland, the San Francisco Bay Area, and Seattle. I've travelled to Britain, Germany, and Spain. I love the Welsh borderlands, the Marin headlands, and the San Juan islands.

If you could live anywhere, where would it be?

Orcas Island. So peaceful!

Did you continue (or are you continuing) your education after Lewis & Clark? What did you study? What is the last degree you earned?

I received my Master's in Library & Information Sciences from the University of Washington in 1999.

If money were no object, you would...

Travel more, and for longer periods of time.

When you were at Lewis & Clark where did you see yourself at the age you are now?

No idea, but I think 20-year-old self would be surprised by 42-year-old self.

What are the goals/dreams/aspirations you are working towards?

Prosaically, saving enough to be able to retire someday. More aspirationally, moving into a field where I can have a greater impact on the world

What Lewis & Clark professors made the biggest impact on the way you think about the world?

Bob Mandel. His classes were great for forcing you to think about issues from multiple perspectives.

What memories come to mind when you think about Lewis & Clark?

Climbing trees outside Fields. Skinny-dipping in the outdoor pool over the summer. Going to Fulton Pub for beer and fries. Party contracts. Meeting my husband.

What were your favorite places to hang out as a student, on campus and off?

Stewart dorm, the aforementioned Fulton Pub, Chez Jose, the Plattform, Pioneer Log offices

What would you have done differently at L&C if you could do it all over again?

Honestly, I learned so much and grew so much at LC. I don't think I would do anything differently, because the experiences I had there helped form me into the person I am now.

What was your favorite class?

Perception & Misperception in International Politics.

If you have visited the campus since graduating, what has been the most surprising change?

All the new buildings!

How have undergrad students changed since you graduated?

You know--kids these days!

Yes. Master of Arts in Linguistics (Syntax) and TESOL in 1997. Master of Science in Computer Information Systems in 2002. Currently taking graduate course work in Systems Engineering and Robotics, trying to decide if I'm going to commit to the Ph.D.

If money were no object, you would...

Have my own swimming pool and people to take care of it.

When you were at Lewis & Clark where did you see yourself at the age you are now?

I thought I'd live overseas for at least 10 years. Nope. Only spent two years after graduation overseas. I've been continuously stateside since 1995 and that shocks me.

What are the goals/dreams/aspirations you are working towards?

The Great American Novel. Aren't we all? I've had requests for the full manuscript from a couple of publishers that I haven't followed through on.

What Lewis & Clark professors made the biggest impact on the way you think about the world?
Nicole Aas-Rouxparis.

What memories come to mind when you think about Lewis & Clark?
Kayaking in the San Juan's before Freshman year started. Goofy things people did in the dorms. The cemetery. Trying to carry art supplies on the bus.

What were your favorite places to hang out as a student, on campus and off?
Can't remember anything specific or special. Senior year it was all the micro brews around town.

What would you have done differently at L&C if you could do it all over again?
Spend more time on campus.

What was your favorite class?
Drumming with Abo Addy.

If you have visited the campus since graduating, what has been the most surprising change?
All the new buildings!

How have undergrad students changed since you graduated?
They got really, really young. Can't believe I was that young looking at 18 too.

City: Portland
State: OR

Work Information
Business: Bullseye Glass Company
Position: Director of Research and Education

Do you have children? What are their names and ages?
Una Belle Crimson Sawyer. 3 yrs old.

Do you volunteer or support non-profit organizations in your community? Why is this important to you?
I support environmental non-profits, medical relief agencies, family planning services, the Land Stewardship Project, Growing Gardens, the League of Women Voters Education Fund,

and the Minneapolis Heart Foundation. I support them because I believe that they make the world a better place for everyone.

What is the professional or personal achievement of which you are the most proud?

Professionally: Developing a much greater understanding of and maturity about what I am trying to do with my art. Personally: Working with my wife to raise our daughter (still in progress!).

Where have you lived and traveled? What are your favorite places in the world?

I lived in Italy for a little less than year from 1994-1995. I've traveled a lot, but not widely, usually to the same places, Northeast Scotland, Amsterdam, London, and around the United States. My favorite places are probably the lake country of northern Minnesota, the Redwoods in CA, and the Alvord Desert in Eastern Oregon.

If you could live anywhere, where would it be?

Aside from Portland? Maybe Amsterdam, possibly San Francisco - but I really don't know enough places!

Did you continue (or are you continuing) your education after Lewis & Clark? What did you study? What is the last degree you earned?

I work in a field where I learn something every day, be it technical, aesthetic, interpersonal, managerial, professional. I occasionally toy with the idea of getting a PhD, but I already have just about the best job that I think I would want in my field.

If money were no object, you would...

If money were really no object I would buy world peace. But since there have to be some sort of limits that should be lesser than "buying world peace" (can you buy that?) and perhaps aspire to be slightly greater than "going to the movies more often," I'd have to say I would spend much more time with my family, do more to support other artists, and find more ways to create and enjoy beauty - which might, incidentally, involve going to the movies more often, but would probably also involve moving very slowly through the woods.

When you were at Lewis & Clark where did you see yourself at the age you are now?

I couldn't see that far, but in the abstract, I imagined that I would be working in the visual arts and maybe have a family.

What are the goals/dreams/aspirations you are working towards?

As an artist, I'm often thinking about the next piece I will make - how that one will be even better, more essential, more what I'm trying to say. So I'm working towards that next piece, and then the one after that.

What Lewis & Clark professors made the biggest impact on the way you think about the world?

Stewart Buettner, Clayton Morgariedge, Ken Shores, Phyllis Yes, Kristi Williams (in alphabetical order).

What memories come to mind when you think about Lewis & Clark?

Working all day long and late into the night in the studios, particularly the old ceramics studio with its windows onto the woods and it's back balcony. Basic Inquiry. The Japanese baths - they seemed like such a good idea. Learning Spanish. Crossing bridges at night. Learning to say "hegemony". Going to the Bush protests wearing a suit and being the only person not taken down during a mass arrest. Having dinner with my professors at their houses. The first time that I heard the Gamelan being played. Getting cookie sandwiches at the Platform. Belting out the lyrics to a song in front of a painting class, only to learn that I had the lyrics wrong. Expressing to the Dean of Students that I was concerned about the fact that he overruled J-board on their reversal of his previous decision regarding our homebrewing operation. My first visit to the Museum of Contemporary Crafts. Being in Baja and having someone ask me if I was Mr. LC. Living in Harvey's house with his yard full of fruit trees and berries and hosting an Alice in Wonderland party. My internship at Blue Sky Gallery. The entire experience of being in Ecuador. Faking an orgasm in an English class to illustrate a point about the limitations of memory.

What were your favorite places to hang out as a student, on campus and off?

The ceramics and painting studios.

What would you have done differently at L&C if you could do it all over again?

I would have known less and learned more.

What was your favorite class?

That's tough, there were so many good ones, but if pressed I'd say it's probably a three way tie between 1. Contemporary American Avant Garde 2. Power, Truth and Meaning, and 3. Contemporary Ecuador.

If you have visited the campus since graduating, what has been the most surprising change?

The physical campus has evolved radically. It looks more like an east coast school - in a good way - than it used to.

How have undergrad students changed since you graduated?

I have no idea.

What did you do the first year after graduation?

I lived downtown in the Everett Street lofts and was the artist in Residence at the Museum of Contemporary Crafts.

Do you have children? What are their names and ages?

Michaela A. Friends, age 3

Do you volunteer or support non-profit organizations in your community? Why is this important to you?

I support several local and national non-profit groups and charities because I want to help improve the life of others, invest in our community and support an educated, socially just community.

What is the professional or personal achievement of which you are the most proud?

Professionally, I am proud of the work I have done at Lewis & Clark for the past 10+ years helping improve communication between departments, increase collaboration across the three schools, develop the Conferences and Events office, support student endeavors, and help Lewis & Clark achieve it's mission and goals. Personally, I am proud of completing my master's thesis which resulted in a web site that provides information and education to family and friends of those suffering from Fibromyalgia. I am also proud of the loving marriage my husband, Jay Friends '93, and I have built together, and I am proud of the choices I have made so far to raise our daughter.

Where have you lived and traveled? What are your favorite places in the world?

I have lived in Bellingham, WA and Portland, OR since graduation from Lewis & Clark. I have traveled to France, England, Germany, Austria, Canada, Mexico and several states throughout the United States. Some of my favorite destinations include: Paris, Manzanita, Oregon, the Puerto Rico island Culebra, Australia, Bali, Boston, Hawaii, visiting sites and taking in vistas along the Icefields Parkway Hwy 93 between Jasper and Lake Louise, Canada, and enjoying national parks including the Grand Teton, Yosemite, and Zion national parks

If you could live anywhere, where would it be?

Ideally I would like to split my time between living by the ocean, living in Paris and in Portland

Did you continue (or are you continuing) your education after Lewis & Clark? What did you study? What is the last degree you earned?

The last degree I earned was my Master in Education (M.Ed.) degree in Adult Education Administration with a concentration in Instructional Design and Multimedia Development. It was completed at Western Washington University in Bellingham, Washington

If money were no object, you would...

If I had unlimited funds, I would: Pay off loans; Take my parents to places in the world where they have wanted to travel; Enroll my daughter in foreign language classes and then take her on extended stays in France and other places in the world; Provide a home, car and medical care to a family friend in need; Contribute more funds to charities that I am passionate about; Take my husband and best friends on trips to fun destinations; Build a backyard sauna; Hire a garden/landscape designer to finish projects around the yard; Go hang gliding again; Buy a cottage along the ocean; and I would take courses in business administration as well as art and floral design classes

When you were at Lewis & Clark where did you see yourself at the age you are now?

I envisioned that I would be busy balancing a career and family life, which it turns out is exactly what I am doing. I thought I would be working in K-8 elementary education designing curriculum and using my psychology degree in some way. I never imagined my life would

include some of the challenges I have faced, and I am very thankful for many blessings to help me along my path through life.

What are the goals/dreams/aspirations you are working towards?

Goals: * Raising an intelligent, compassionate, happy daughter * Living a healthy lifestyle * Running in the Race for the Cure * Continuing to learn and increase my knowledge Dreams: * Living to see my daughter graduate, find a loving partner, and start her own family * Happily celebrating my 50th wedding anniversary with my husband * Traveling worldwide * Taking a roadtrip across the US to Maine to see the fall leaves * Participating in a plein air watercolor class * Learning how to make fondant * Knitting a sweater * Walking the Camino de Santiago de Compostela, also known in English as The Way of St James pilgrimage path * Taking a ride in a hot air balloon * Having a meal at the French Laundry restaurant

Professors of Psychology: Glenn E. Meyer Erik Nilsen Tom Schoeneman Inquiry classes: Rob Whittemore Religion Class: Dick Rohrbaugh Indonesian Overseas Trip Preparation Classes: Roger Paget

What memories come to mind when you think about Lewis & Clark?

I remember: The old trees surrounding the chapel and the Manor House, the beautiful campus landscape and view of Mt. Hood, the old houses along Huddleston Lane, the old College Outdoors McAfee house, the old art building, and the old classrooms where JR Howard now stands; The Basic Inquiry/Advanced Inquiry courses that helped develop my critical thinking skills and introduced me to new concepts we never covered in high school; Walks into the ravine to conduct biology research; Staying up all night in the library to prepare for Bill Randall's chemistry exam; Running across campus from Forest residence hall to my professors' offices to deliver papers due within minutes that had taken FOREVER to print off my dot matrix printer; Biology and chemistry study sessions with friends; Moving from my home in small town to Lewis & Clark and finding out I would be living in a quad with three other women in Copeland, and the ice on the inside of the Copeland bedroom window and how upset my roommate from Hawaii was because she couldn't figure out how to close the window that was frozen open; Traveling on the Indonesian overseas trip; Buying lofts from other students and building them in dorm rooms in Forest Hall; Keg parties in Copeland's Rusty Nail my first year; Being hired to be an RA my senior year and being the first RA team that had to implement the new alcohol policies adopted by Lewis & Clark; Meeting my husband-to-be in a Psychology stats class and meeting his residence hall roommates and floormates which would end up being life long friends; Conducting research with professors and our research being published; Attending intellectual soirees at a professor's home; Hanging out with friends in Forest watching Saturday Night Live; President Mooney mentioning my name in his "This is Who You Are" annual commencement speech

What were your favorite places to hang out as a student, on campus and off?

Some favorite hang out spots included friends rooms in Forest and off-campus apartments, the research labs in the Bio-Psych building, Bagby hot springs in Mt. Hood National Forest,

going out to Chinese food on Barbur Blvd., sushi at Koji Osakaya and the Spaghetti Factory on Macadam Street, and the Fulton Pub

What would you have done differently at L&C if you could do it all over again?

I'd worry less about finishing a major quickly and worrying about getting high marks. Instead I'd explore more subject areas, participate on more College Outdoor outings, take better advantage of work-study jobs, and get involved with student organizations or student government.

What was your favorite class?

It's too difficult to pick just one favorite class. I loved all my courses taught by Glenn E. Meyer, Erik Nilsen, Tom Schoeneman, Rob Whittemore, and Dick Rohrbaugh

If you have visited the campus since graduating, what has been the most surprising change?

Removal of the parking lot by the old entrance to Watzek library, the Watzek library remodel, and addition of academic buildings

How have undergrad students changed since you graduated?

The students seem smarter, more skilled in leadership, and less inhibited

What did you do the first year after graduation?

I worked at a summer camp as a camp counselor, I worked in a half-way home for patients with serious psychiatric disorders, I helped with a psychology experiment at Lewis & Clark, and I moved to Bellingham, Washington to get ready to start my masters in education program.

If you are not able to attend the reunion, what would you like to say to your classmates as they gather on campus to celebrate?

To all the alumni and their families visiting for Reunion Weekend, I hope you enjoy your time back on campus, and you create many happy new memories at our alma mater. May the Reunion Weekend festivities help you connect with friends old and new. Please be sure to thank the Alumni Office staff who have worked very hard for many months to create the Reunion Weekend festivities. ~ Sherron Class of '92
