## Gender Inclusive Housing Agreement

Gender inclusive housing is designed to provide a living option for students of alternative sexuality or gender identity, as well as their allies, and other students who would feel more comfortable and safe in a living environment not tied to the traditional roommate pairings of female with female and male with male. Gender inclusive housing is not intended for romantic cohabitation. Any double occupancy bedroom on campus that is not situated on a single-sex floor or floors where restrooms are designated single-sex can become a gender inclusive room. Suite style rooms in Hartzfeld and Holmes Halls are not eligible for gender inclusive housing.

By signing below, we agree to enter into a gender inclusive housing arrangement; wherein we recognize that the parties listed below will share a bedroom in a campus residence hall. In the event that one of the individuals listed below is unable to complete their planned term of residency, we agree to work with Campus Living to identify alternative housing arrangements. We also understand that in the event one of the individuals unexpectedly leaves the College, it may become necessary for Campus Living to return the room to a traditional roommate pairing; female with female and male with male.
