Associate Professor
Eric Tymoigne's
economics class
wasn't easy, but I
learned a lot about
how macroeconomics
theories are applied in
the global economy.
Also, he was really
helpful during office
hours and friendly to
his students.

Lots of interests? Double major, or add a minor or two.

The international students office is wonderfully welcoming and played a significant part in helping me feel at home. They make space for international and American students to interact together, outside of the classroom.
