	3:55 - 5:30				

To reduce congestion in building hallways, faculty will stagger their start and end times slightly so that not all classrooms are releasing students at one time.

Faculty teaching in periods 1 and 7 (8 a.m. courses) always begin class at 8 a.m.

In every other extended period (except periods 4 and 4/5):

- Odd numbered classrooms – faculty begin teaching at the beginning of the extended time period.
- Even numbered classrooms – faculty begin teaching 5 minutes after the extended period begins.

In periods 4 and 4/5 only, the schedule is reversed:

- Even numbered classrooms – faculty begin teaching at the beginning of the extended time period.
- Odd numbered classrooms – faculty begin teaching 5 minutes after the extended period begins.

This will allow extra time for cleaning between extended periods 3 and 4, and 8 and 4/5.
