

Academic year 2020-2021

Goals for the YEAR (long-term)

- To ensure visibility among international students, TCK students, and domestic students as a student government for International Students and TCKs.
- To organize a successful International Fair that educates and also entertains the public. The international fair will take a week of workshops to create awareness of global issues, as well as our long-established tradition of performances. This year represents a challenge for the organizers, we hope to achieve the best possible outcome.
- To ensure that international students are granted priority in the housing lottery given that most of them are not able to live off-campus.
- Creating closer ties between the ISLC and the members of the United Front.

Goals by the END OF FALL 20' (medium-term)

- Organize a successful, COVID-safe pumpkin event for Halloween.
- Reach out to every new international and TCK student on campus.
- Establish a template for minutes taken by the ISLC representative in the ASLC.

Goals by OCTOBER 31 (short-term)

- Successfully organize a conversation to bring awareness regarding the ongoing conflict in the Nagorno-Karabakh territory in collaboration with the IA department.
- Successfully organize the first COVID-safe frisbee event for international students and TCKs.
