How to Describe Camp Counselor Experience on a Resume

On your resume, describe your camp counselor experience in the same way you would describe your campus involvement or work experience. What was your role at the camp? How would your supervisors, campers, and other counselors describe you? Focus on your accomplishments. Select the skills that are transferable to your career interests and demonstrate the qualifications required for the desired position, organization, or industry.

You can list your counselor experience under *Experience*, *Related/Relevant Experience*, or *Leadership Experience* on your resume. Include a few short bullets highlighting your achievements, and describing what you did, how you did it, and any results. Your camp counselor experience can show your:

- Communication, counseling, and leadership skills
- Work ethic that can set you apart from other candidates
- Collaboration, team building, and conflict resolution skills
- Empathy, humor, and persuasion to gain respect of campers
- Activity planning and oversight
- Organization and program administration

Below are a few examples of various ways to include your camp counselor experience on your resume:

The key is to recognize the skills you possess and adapt them to the position, organization or industry to which you are applying, while describing them in professional terms. If you list the skills that you use to manage your counselor experience, you will see that they can be transferred to other environments. In fact, you will find they

are quite valuable in the work environment, which means that if marketed correctly, you will be very attractive to a potential employer.
