

## **DREAM CAREER**

If you could have any job you wanted, what would it be? If you could design your day to do whatever you wanted to, what would it look like? As you read each question, try to visualize how you would like things to be. Form a mental image in as much detail as you can, then write your response.

1. Wake up time. What time is it?
2. Get dressed. What kind of clothes do you put on?
3. You are ready to leave for work. What time is it?
4. How far do you live from where you work?
5. How do you get to work? How long does it take?
6. You are at work now. Where are you? (In the country, city, suburban area, etc.)
7. Describe the work setting. (Inside, outside, high office, classroom).
8. Describe the environment. (What does it look like? How do you feel when you are there?)
9. Do you work by yourself or with others? How many others?
10. How much do you get paid?
11. Do you plan your own work, or are you assigned tasks?
12. Do you work mostly with data, things or people?
13. Describe the people in your work area. What are they like? What are they doing?
14. What are the four most important or valuable aspects of the job?
15. What are your highest achievable goals in this job or field of employment?
16. Can you put a job title on what you are doing?
17. What time do you complete your day's work?
