### ASLC Goals

- Within my union I want to keep on working on being inclusive so students who identify as latinx feel welcome.
- I want to work with my co-leaders to create a wide range of engaging events
- I want to work on being transparent about what happens within ASLC to GLU leadership & members.

### ASLC Fall Semester report

I am the Representative of Gente Latina Unida through the fall 2020 semester. One of my goals, this semester was to work with my union leaders to create a wide range of engaging events for our members to engage in. We worked with the college outdoors to have a student of the color guide a GLU day hike. Also, I worked with the head of Student Alumni to have a Latinx community Alumni Career Panel. This panel was a success where our union members and the larger LC community were able to engage with Lewis and Clark Latinx alumni, as well as many other events. My second goal is to keep on working with our union on being inclusive so Latinx students can feel welcome. This past semester we did that by collaborating with the Spanish Club and IME to celebrating Day of the Dead and Day of all Saints where we were able to have an in-person event for students who celebrate that holiday. We also had an in-person movie night where we had a number of first-year Latinx students who were able to meet other upperclassmen and connect. My last goal of the semester was to work on being transparent on ASLC matter with GLU leadership and members. Throughout the semester I was able to do that by dedicating 10 min of GLU leadership meetings to update my co-leaders on what was happening on ASLC as well as taking notes during ASLC meetings to share with my co-leaders. I will continue working on these goals through next semester.
