1. Welcome 🙌

OW - Robin is having her last coffee chat this week! Sign up for NSO

IA Symposium - it covers all sorts of topics, there will definitely be at least one debate that you will really enjoy. We will talk about ecoterrorism

SC - theres an Alum from LC that is a charged eco terrorist

ET - yes i will be hosting one of them

MS - Fosa feud we have room for 13 teams, we sent out an email on march 16th. Fill out the question answer form, be creative with your answers,

OW - it is department vs department, if you want to join email your department and they will select teams.

Rocky - who is the verbal host?

MS - we do not know yet.

SPN - the FSU is sponsoring Monica Lewinsky to come on 4/20. Tickets will be released on reserve tomorrow. If remotely interested, reserve a ticket.

- Announcements! So many events!!

2. Brunch w/ Reed this weekend!

- Sunday, April 3rd at 11:00 am
- Free brunch, meet Reed Student Gov, learn about their functions/issues
- If you would like to come and/or need a ride, email aslcpresident@lclark.edu ASAP

OW - meet their student government. If you want to go email me or SLM.

3. Honorary Tax Form + Volunteer agreement **due next Tuesday, April 5th**

- **If you want to receive your \$50/semester for being on senate, this is the final deadline**

OW - deadline is next tuesday. It is two simple forms. I will send them all to you again.

SC - I filled out all my stuff and did not receive money.

SLM - i will look but it has to be submitted before finalization.

ET - i didn't get mine for a long time and then i checked my mailbox the other day and got mine.

4. SB004 - Senate Election Overhaul

- Discuss new edits

OW - are we assigning in the spring and giving leftover spots in the fall, or do we leave it up to the VP. The cabinet voted that whichever option you vote on will be passed.

AC - added a new definition for quorum. Sec. 12 about attendance

OW - this elects 9 senators in the spring for the next year. We register for classes in a few weeks, we do this for the cabinet and elect them ahead of time. The three remaining seats and seats that are not filled rollover to the fall. Leftover seats are open to anyone. Who gets to vote for who? Everyone gets to vote for everyone. We are discussing these three options or alternatives. In spring with senators are they assigned then or does that disadvantage the three other people.

IB - it would save us a lot of time voting for option 3, someone who goes through the trouble to be VP should be able to do that task.

OW - any opposition

SFV - given how it is now, we can start the first day of school

SC - some committees do not have as much urgency, finance, i think SPAC was fine starting when we did.

OW - this also leaves space for flexibility of what the incoming senators are. Then we can make some of them the finance committee or shuffle them around. Most committees are flexible.

MTV

The motion passes with resolution 3. Keeping the SQUO

5. SB006 - EOC Bylaws

AC - the community outreach coordinator does not exist anymore. They are changing it to a livewhale assistant, the current chair does not have experience editing the website.

OW - this has already been passed by the EOC. The EOC was split in two positions. They were in charge of livewhale our past website. This designates a person in EOC in charge of doing that.

The bill passes

Note Taking Reforms

- Bill in progress

AC - how will we handle audio recordings. Previous recordings where do we put them

OW - a youtube channel who monitors/updates that. Maybe for this bill the notetaker is responsible for managing audio recordings. If we add software we will just add to the budget next year.

SFV - we want to pass the standardized approval so that they are publicized for the student body.

ET - we should get a microphone. This is a big room.

OW - yes we can look into tech

AC - sec 5 adds those motions as administrative so we do not need a quorum to edit minutes. Do we need a majority of the senate to make changes?

OW - do we all agree that we do not need majority of all members

IB - have we considered hiring two notetakers

AC - the auditor can hire more staff

OW - other committees on campus I am sure that they record meetings, I will ask around. We will add a clause that audio recording is up to the notetaker.

- Voting on the notetaker being in charge of audio recordings

ALL vote yes in the straw poll

6. Land Acknowledgement Check-In

- o [New Land Acknowledgment?](#)

OW - I wrote a rough draft reading our resources. I encourage you to read it to yourself, make any comments on the document, change and or delete things. From one of Sam's resources, there was a list of different resources. I used them. I want to hear AG contributions

EY - this is much better, more coherent and makes more actual sense than the previous statement

OW - at the end, in our limited capacity as a student government. We do not have money/land to give back to tribes. We are not a corporation that can do the traditional ways of decolonizing that we think of

EY - I don't think it would be the most effective place. It distracts and is a different thing.

OW - I didn't put our name in it.

SC - it is much longer but we also discussed how often we should read it. Before the land acknowledgement, we did not know the land that we were on, hearing it too many times makes it lose its meaning. Maybe make it longer and not read at every single meeting.

OW - we could refer back to how ASB engaged with things like this.

ET - I like that it is mandatory for someone else to read it every time. The only other thing, contributing to this world.

OW - yes please add comments.

7. Community Updates

- o Order food for the last meeting???

- i. April 19th (*technically we could have 1 more meeting but reading days start and we all get super busy so I figured no one would come, but if we absolutely need to we can*)

OW - everytime we have had a meeting scheduled on reading days, but we canceled it. We can use the cabinet money to buy food, eat outside, and have it be much more casual.

- ii. Send any food ideas to Sarah <3
