(3/5/23) Urgent Network Outage Update

Dear LC Community,

We are pleased to report that our IT team has restored on-campus access to the Pionet-Guest wifi network.

To access, select Pionet-Guest from your available wifi networks and then click OK. There is no login required. You will then be able to access the internet. You may experience some instability when connected to this network. IT is monitoring the situation and working diligently to maintain stable connectivity and restore other network services.

Your continued patience is appreciated.
